

Task::2

Represent the data as per the given criteria:

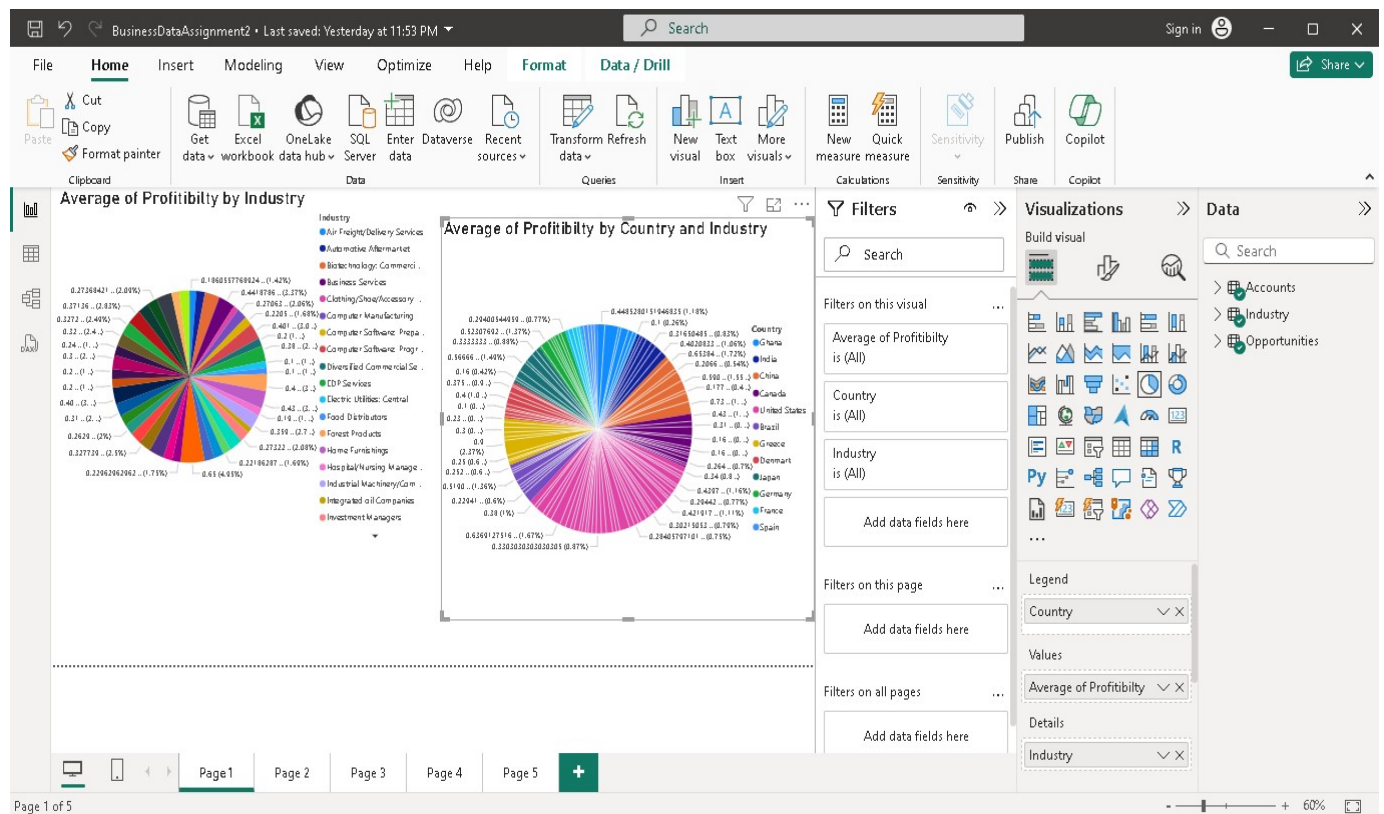

- Country-wise industry and average profitability margin (in Percentage %).
- Add a separate filter so that country-wise industry and profitability margins can be shown based on the selective countries (There is no bar on country selection).

The screenshot displays the Microsoft Power BI Desktop interface. The main window shows a data table with columns: Country, Industry, and Average. The table lists various countries and industries with their corresponding average profitability margins. The 'Country, Industry' column is highlighted. To the right of the table, there is a 'Filters' pane with a search bar and three filter sections: 'Filters on this visual', 'Filters on this page', and 'Filters on all pages'. The 'Filters on this visual' section contains three filters: 'Average of Profitability is (All)', 'Country is (All)', and 'Industry is (All)'. The 'Filters on this page' and 'Filters on all pages' sections are empty. Below the filters, there is a 'Visualizations' pane with a search bar and a list of visualization types. The 'Columns' section of the 'Visualizations' pane shows three columns: 'Country', 'Industry', and 'Average of Profitability'. The 'Drill through' section is set to 'Off', and the 'Keep all filters' section is set to 'On'. The bottom status bar indicates 'Page 3 of 5' and a zoom level of 60%.

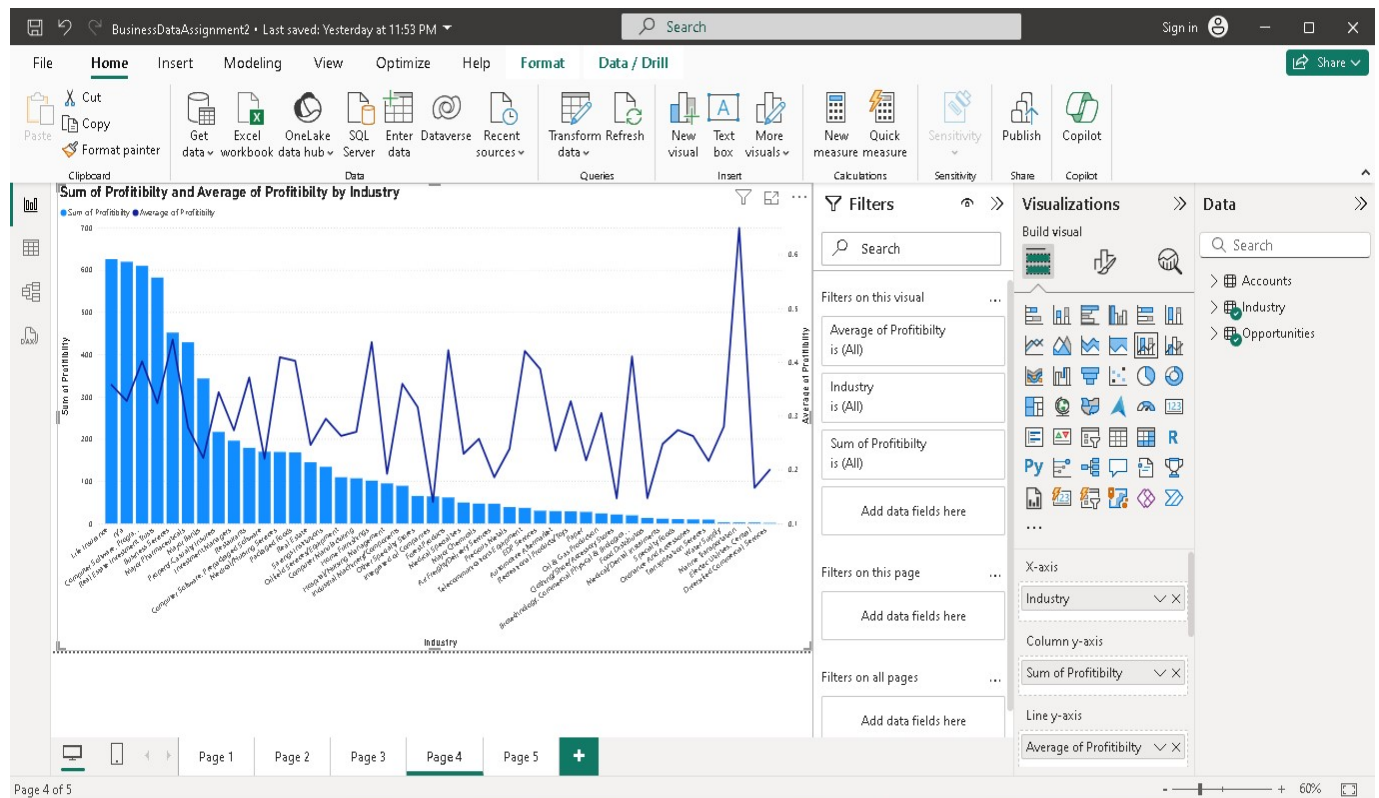

Country	Industry	Average
Germany	Savings Institutions	0.29
France	n/a	0.29
United States	Major Chemicals	0.28
India	Major Pharmaceuticals	0.28
Spain	Major Pharmaceuticals	0.28
United States	Oilfield Services/Equipment	0.28
United States	Specialty Foods	0.27
China	Computer Manufacturing	0.27

Greece	Electric Utilities: Central	0.25
United States	Medical/Dental Instruments	0.25
Germany	n/a	0.24
United States	Automotive Aftermarket	0.24
United States	Paper	0.24
United States	EDP Services	0.23
Denmark	Ordnance And Accessories	0.23
Ghana	Packaged Foods	0.23
Greece	Automotive Aftermarket	0.23
Total		0.31

Represent the following data using a pie chart:

- Industry-wise profitability percentage.
- The data should be visualized in single or multiple country-wise.

Represent the data that shows industry-wise profitability trends by taking the Line & stacked column chart from the visualization section.

Represent the data to show country-wise industry market values and industrywise presence by taking the map chart.
